G2 Series LFB6080G2, LFB6081G2 2-Piece, Full Port, Lead Free* Bronze Ball Valves

Sizes: 1/4" - 2"

The G2 series ball vale is a 2-Piece, Full Port, Lead Free, Bronze Ball valve. These products can be used in both commercial and industrial applications. This series features a blowout proof stem and a full-port orifice to ensure minimal pressure drop. The G2 series is available with solder or NPT end-connections.

Features

- Lead Free*, forged bronze body and adapter
- Full-port flow
- Full range of sizes from 1/4" 2"
- Certified to NSF 372
- Minimal pressure drop due to large ports
- Blowout proof, pressure retaining stem
- Adjustable stem packing gland
- White handles for easy Lead Free* identification
- 100% Factory tested in USA
- Used in commercial and industrial applications for a full range of liquids and gasses.
- Complies with MSS-SP-110

Models

LFB6080G2	1/4" - 2" threaded NPT end connections
LFB6081G2	3/8" – 2" solder end connections**

NOTICE

The information contained herein is not intended to replace the full product installation and safety information available or the experience of a trained product installer. You are required to thoroughly read all installation instructions and product safety information before beginning the installation of this product.

Pressure – Temperature

Temperature Range:

0°F - 400°F (-18°C - 205°C) @ 50psi (3.4 bar)

Pressure Range:

1/4" – 2" 600psi (41 bar) WOG, non-shock; 150psi (10.3 bar) WSP

Specifications

A 2-piece full port Lead Free* bronze ball valve to be installed as indicated on the plans. Valves with top loaded stems or valves without adjustable packing are not acceptable. Pressure rating no less than 600psi (41 bar) WOG non-shock and 150psi (10 bar) WSP. The valve shall be constructed using Lead

Free* bronze. Lead Free* ball valves shall comply with state codes and standards, where applicable, requiring reduced lead content. Valve must conform to NSF 372 and shall be a Watts Series LFB6080G2 (threaded) or LFB6081G2 (solder).

Standards

Tested and Certified by NSF International NSF 372 Lead Free.

Applications

- Full range of fluids
- Hydronic Heating (90% glycol max)
- Low Pressure Steam, 15 psi max
- Not applicable for flammable gas installations
- Not compatible with soft annealed copper tubing

*The wetted surface of this product contacted by consumable water contains less than 0.25% of lead by weight.

NOTICE

Apply heat with the flame directed **AWAY** from the center of the valve body. Excessive heat can harm the seats. After soldering, the packing nut may have to be tightened.

Watts product specifications in U.S. customary units and metric are approximate and are provided for reference only. For precise measurements, please contact Watts Technical Service. Watts reserves the right to change or modify product design, construction, specifications, or materials without prior notice and without incurring any obligation to make such changes and modifications on Watts products previously or subsequently sold.

Materials

Α.	Handle Nut	Zinc-plated carbon steel
В.	Handle Assembly	Zinc-plated carbon steel with vinyl
		insulator
C.	Packing Nut	Brass
D.	Stem Packing	Virgin PTFE
Ε.	O-ring	Fluorocarbon elastomer (FKM)
F.	Thrust Washer	Virgin PTFE
G.	Stem	Lead Free* Brass
н.	Tag	Cardboard, Mylar coated both sides
١.	Body	Forged Lead Free* bronze
J.	Seats	Virgin PTFE
K.	Ball	Chrome-plated Lead Free* brass
L.	Adapter	Forged Lead Free* bronze
