

# More Than A Retrofit-Spool It's A Solution!

The fast, versatile approach for efficiently replacing a backflow preventer

## Working with FEBCO

Configure a backflow preventer replacement tailored specifically to your job requirements.

- Unique outside-the-shutoff valve design offers a wide choice of configuration options
  - Configuration not limited by inside-the-shutoff valve and approvals
  - Custom spool produced with optional connections, flush ports, branches, or tees
  - Spool constructed using stainless steel pipe
  - Order easily — configure a backflow retrofit solution in a few simple steps
  - Built to order — ships fully assembled or as parts
  - Most orders ship within 48 hours

## Custom backflow/spool combo program
