# **HydroGuard® HT115**

# **High Temperature ShutOff Device**

### Description

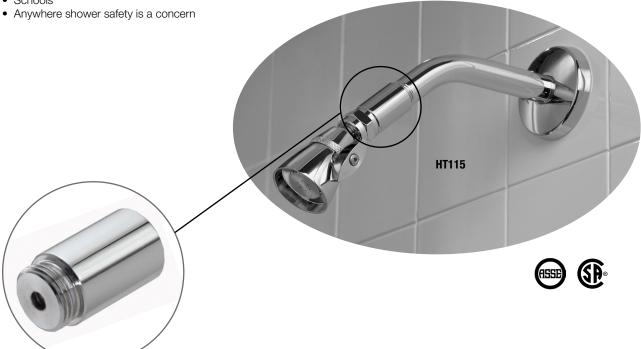

Powers' high temperature shutoff device is designed to provide thermostatic protection for the shower. If the temperature during the shower reaches 115°F ±3°F (46°C) ±1.6°C this device instantly reduces the flow to less than 0.25 gpm (from 2.5 gpm). Once the temperature drops below 115°F (46°C) the HT115 automatically resets and resumes the full flow within seconds. It is ideal for use with two handle, single handle, pressure balance and temperature control shower valves. It is easy to install and can be used for new or existing installation.

#### **Features**

- Factory set at 115°F (46°C) shutoff limit for safety
- New ATA (Advanced Thermal Actuation) technology improves performance
- Solid brass construction enhances durability
- Maximum flow rate 4.0 gpm (15.2 l/min)

Superior design ensures long-term reliability and it is ideal for:

- Hospitals
- Hotels/Motels
- Private Residences
- Healthcare
- Schools

## **Specifications**

Description ...... Shower high temperature shutoff

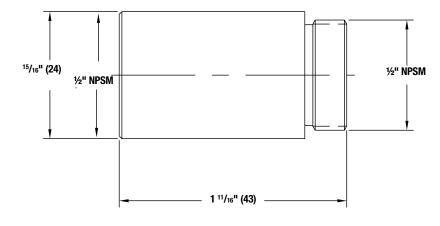

device

Finish . . . . . Polished Chrome

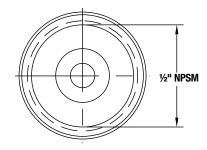

Housing Material ..... Brass

Shipping Weight . . . . . . . . . . . . 0.25 lb. [0.11 kg]

#### **Dimensions**

Note:
Dimensions are shown ±1/2"
Dimensions in parentheses are in mm
